

## Flexible Roof Repair & Protection System

Belzona® 3111 (Flexible Membrane) is a single component solvent free microporous coating for the long term repair and protection of all types of roofs.

This versatile liquid applied material provides outstanding weatherproofing and waterproofing properties with excellent protection against infrared and ultra violet radiation.

### Belzona® 3111 (Flexible Membrane) will:

- Simplify roofing maintenance
- Provide long term protection 20 years +
- Bond strongly to all types of roofing substrate
- Follow complex roof contours

This lightweight seamless polymer coating bonds tenaciously to a wide range of substrates including felt, asphalt, lead, zinc, copper, glass, concrete and brick.

## Belzona® 3111

Flexible Membrane

Gutters

Glazing Bars

Skylights

Flashings

### Applications for Belzona® 3111 (Flexible Membrane) include:

- Upstands
- Glazing bars
- Gutters
- Flashings
- Joints and seams
- Coping stones
- Parapet walls
- Skylights
- Chimneys and vents
- Flat roofs

Repair • Protect • Improve

# Belzona<sup>®</sup> 3111

Flexible Membrane

## Belzona<sup>®</sup> 3111 (Flexible Membrane) is:

### Simple

- Easy brush application
- Single component, no mixing required

### Safe

- Application requires no heat
- Lightweight application

### Versatile

- Follows complex roof contours
- Highly elastic, adapts to roof movements
- Microporous, allows substrate to breathe
- Bonds strongly to most substrates
- Total encapsulation

### Effective

- Long term repair and protection
- Outstanding environmental protection
- European Technical Approval

Fully Encapsulated Roof Repair & Protection System
